... E RICORDA

NUN C'È MEGGHIU SARSA DI LA FAMI

Il nome mio è di tutto lo staff, ti auguriamo di gustare al meglio i nostri prodotti, Che lo vogliate o no, un buon piatto è anche scoperta, brivido, stupore, sogno, prodigio, affinità, adorazione, qualche volta disappunto e delusione. Se non fosse tutto questo si chiamerebbe solo cibo.

"TRATTIAMO BENE LA TERRA  
SU CUI VIVIAMO:  
ESSA NON CI È STATA  
DONATA DAI NOSTRI PADRI,  
MA CI È STATA PRESTATATA  
DAI NOSTRI FIGLI."

Proverbio Masai

Da sempre gli uomini hanno dovuto rapportarsi con il cibo, ma l'approccio non è stato sempre uguale nel tempo. Siamo ciò che mangiamo, recita una celebre frase. Si tratta di una realtà evidente, sotto gli occhi di tutti: gli alimenti che arrivano nel nostro corpo contribuiscono al benessere fisico, ma anche della mente. Oggi più che mai siamo tutti più attenti al cibo che mangiamo, poiché è da questo in primis che dipende il nostro stare bene. Il rapporto con il cibo deve essere il più possibile equilibrato, senza eccessi, per questo è necessario educare i più piccoli ad avere un approccio sano con gli alimenti, per evitare che da adolescenti possano avere disturbi alimentari.

Il buon cibo è il fondamento della vera felicità

### DATI SULLO SPRECO ALIMENTARE:

1,3 miliardi di tonnellate di cibo vengono sprecati ogni anno in tutto il mondo.

Ogni italiano spreca in media circa 149 kg di cibo ogni anno.

L'Italia spreca circa 9 milioni di tonnellate di cibo all'anno.

### IMPORTANTE:

come hai potuto notare siamo molto attenti all'ambiente, ma anche molto sensibili agli sprechi, se non sei riuscito a mangiare tutto, può ricomparire il "fagotto" e riparlo in frigo per essere consumato anche domani.

## ... TI AIUTIAMO NOI A SMALTIRE IL NOSTRO PACKAGING

Nel corso degli anni il nostro approccio nel gestire la differenziata si è sempre evoluto, il nostro vecchio Packaging prevedeva l'esclusivo scopo di "arrunciare tutto" e smaltirlo nell'organico, ma le stime dei dati ci confermano che le compostiere sono al collasso, quindi abbiamo preferito concentrarci sul materiale riciclabile e dare nuova vita a quello che potrebbe essere semplicemente uno "scarto"

### Lo scatolo del Panino ...

il codice di riciclaggio di questo prodotto è C- PAP 22, adatto per stare a contatto con gli alimenti, la lettera "C" sta ad indicare un materiale poliaccoppiato ma costituito in prevalenza da carta quindi riciclabile da conferire nell'apposito secchio ed avere così una seconda vita.

### L'incarto del Panino e la Busta delle Patatine Fritte

il codice di riciclaggio di questo prodotto è PAP 22, adatto per stare a contatto con gli alimenti, Carta, quindi riciclabile da conferire nell'apposito secchio ed avere così una seconda vita.

### Scarti di Cibo - Tovaglioli - Forchettina in legno per le Patatine

**ORGANICO**

### La Nostra Salviettina lavamani Igienizzante e le bustine di Ketchups e Maionese

PI è il simbolo generico che identifica tutti i materiali poliaccoppiati che non possono essere destinati alla raccolta differenziata. Tipologia di rifiuto secco oppure indifferenziata.

### Vaschette in Poletilene per Ketchups e Maionese

È il codice che si trova più frequentemente sulle bottigliette di plastica. Indica che il materiale è composto da polietilene tereftalato. Può essere indicato con il numero 1 o con la sigla PET. Questi contenitori non dovrebbero essere riutilizzati per via del rischio di contaminazioni batteriche: dunque, una volta utilizzati, vanno smaltiti nella Plastica

**In ogni caso, è sempre buona norma controllare le regole di smaltimento del proprio Comune.**
